

Dear Genesis PrimeCare Family

We, at Genesis PrimeCare, are aware of the concerns in our communities regarding the likely rise of a new Covid virus variant. In response to the needs of our valued patients and caregivers, your local GPC clinic is taking steps to prepare for the testing and treatment that may be required. As always, our goal is to offer prompt and courteous customer service. We ask for your patience in the days to come as wait times may increase as the testing and treatment workload grows. Our providers and staff continue to strive to provide the effective and efficient medical care that you deserve.

Blessings for the days ahead,
Your friends at Genesis PrimeCare
