

East Texas Health Centers Receive \$2.7M to Expand COVID-19 Testing Efforts

The mission of Genesis PrimeCare is to positively impact the health and wellbeing of the communities we serve. The additional funding provides support to prevent, prepare for, and respond to coronavirus disease 2019 (COVID-19). Specifically, funds may be used for necessary expenses to purchase, administer, and expand capacity for testing to monitor and suppress COVID-19. Genesis PrimeCare has several sites in rural northeast Texas, the funds will also help provide comprehensive primary health care, pediatric care, and behavioral health services through video and voice telehealth consults, and Internet-connected remote patient monitoring and treatment of our patient population.
